Advertising on the railway bridge in Green Lanes: the general preference of residents attending the meeting (8th July 2010, 9 people) was for no advertising and a celebration of the bridge itself as an attractive structure (eg bridges at Seven Sisters and Finsbury Pk look attractive)

However , if advertising were to take place, it was agreed that it should be ring-fenced to help finance the next GL Festival and that the Festival Committee should play a determining role in the nature and extent of the advertising
